WHERE DO WE COME FROM?

Digitalact draws its **strength** from the first quarter of the moon...
When the moon appears to be cut in half, shows that it is ready to act.
If we **discover** any obstacles that hinder our way,
we go after it and take action.

We don't like to take the easy road, we follow the latest **trends** in software
and design, we bring you **together** with the best user experience.

D/ACT

SO,

THIS IS NOT JUST AN ORDINARY LETTER "D",

BUT JUST THE BEGINNING OF THE DIGITAL EXPERIENCES

WE DESIGNED FOR YOU VIA DESIGN AND DEVELOPMENT.

D/ACT

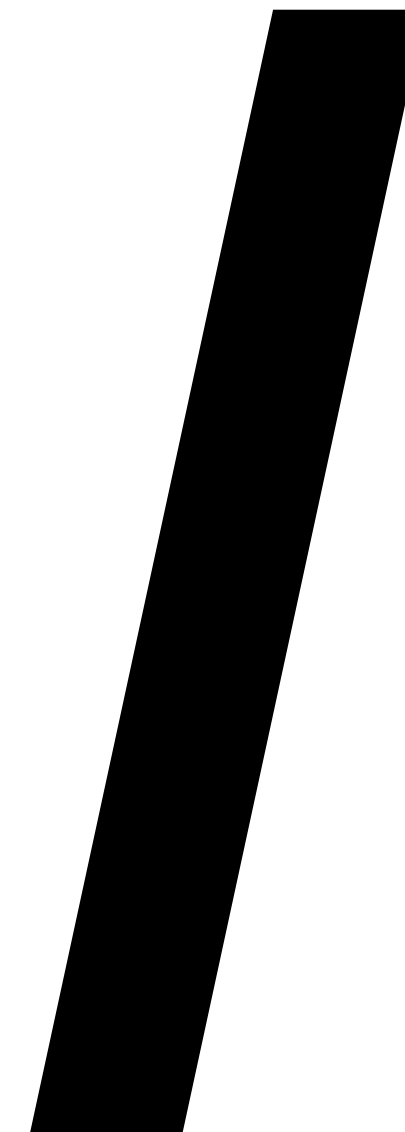

LOVELY TO MEET YOU

DEMOCRACY

We're open to ideas come from anyone, anywhere, anytime.
Diversity helps us recognize and respect “ways of being” that are not necessarily ours.
We believe that a great idea is not a property of one person.
By offsetting a group with an assorted cross-section of experts, it's amazing what we can achieve.

BACK-END DEVELOPMENT

We arrange the server side of an application and everything that communicates between the database and the browser. In the first place, our developers focus on how the site works. In order to monitor functionality of the site, updates and changes will be our responsibility. It is not easy to see our work in front-end but our developers will ensure that the background works best.
